Youth Program Consent Form

Our Purpose

The Youth Program is designed to help those who may be struggling with housing, academics or medical care. We are also focused on creating group connections and making it accessible for youth to participate in group activities, workshops and events. My role as a youth case manager is to support the needs of everyone and help make resources accessible.

Record Keeping and Confidentiality

Routine information will be collected during participation; this includes information such as assessment of needs and basic information.

I have read the information above and understand that if I have any questions about this agreement form or Youth services, I can discuss them with the Youth Case Worker from the YWCA. I understand that at any time, I can let the YWCA know that I no longer want my child participating.
